TO WHOMSOEVER IT MAY CONCERN

This is to certify that we are having Three Numbers Secondary Current Injection Kit **Type T/1000 Make ISA – Italy** and under our current use has an Excellent Performance and we have so far tested more than **10,000** different Electro-mechanical, Static and Numerical relays.

The exceptional good feature of this kit is it is having Manual Testing facility for Frequency mode and RAMP (DF/DT) also.

We strongly recommend that every Good Industry and every Organization should have at least One such kit which is having testing features required for an Industrial Power System Protection.

Yours faithfully,
For **ELCON ENGINEERS**
PRIVATE LIMITED

A handwritten signature in black ink, appearing to read 'Arvind Mehta', is written over a light grey rectangular background.
